

Page structure, copy hierarchy and publication rules for cdmmodel.ca.

1. Recommended website architecture

Page	Purpose
/	Home: one-sentence model, Core Three, complete architecture graphic, evidence standard, key downloads.
/autonomies	Current nine Autonomies plus clearly labelled extended fields and the financial meta-layer.
/core-three	Housing + MGA + Fuel; household-spending rationale and urban/rural deployment.
/canada-crisis-map	Crisis/root-cause matrix with Root / Deep / Support / Outside classifications.
/household-retained-income	Explain the proposed affordability measure and how it is calculated.
/mga	Full MGA system: retail, producers, warehousing, cold chain, processing, food-bank integration.
/community-services	Childcare, hubs, hygiene/laundry, service navigation and emergency supports.
/community-safety	Prevention, crisis response and Law Enforcement as a Support Service.
/financial-autonomy	Financial infrastructure concepts with strong regulatory disclaimer.
/research-and-evidence	Source register, scenario labels, measurement framework and corrections/versioning.
/downloads	PDFs, infographic PNGs and proposal packages.

2. Homepage copy

Community-Driven Municipal Model (CDMM)

A municipal-capacity framework for building permanent local assets, lowering essential household costs, expanding productive capacity and reinvesting sustainable value into stronger communities.

Core Three: Housing Autonomy + Municipal Grocery Autonomy + Fuel Autonomy. These fields correspond to shelter, food and transportation/fuel - the three largest categories of average Canadian household goods-and-services spending in Statistics Canada's 2023 survey.

3. Evidence-language standard

Label	Website rule
Established fact	Use only when supported by current reliable evidence.
Existing authority	State exact jurisdiction and legal source; do not generalize across provinces.
Proposal	Clearly label CDMM design concepts that are not current law.
Scenario	Label projections/modelled outcomes and publish assumptions.
Precedent	Describe what another municipality/country actually did; do not imply endorsement of CDMM.
Unresolved legal question	Flag when authority or regulatory treatment requires counsel/official confirmation.

4. Download order

Lead with the Complete Architecture, Canada Crisis & Root-Cause Atlas, Measurement Framework and Legislative Advocacy Framework. Follow with individual Autonomy papers and municipal proposals.

Infographics should open full-resolution in browser with a short plain-language caption and a PDF download underneath.
